

Projects

Realisations Inc. - Interactive Entertainment Table

Alchemical Machines is assisting Realisations Inc. to develop an interactive entertainment table. The system uses markerless video-based tracking to analyse multi-user gestures and update a 3D scene. It is the next version of the system they installed at the famous Tabú Ultra Lounge nightclub in Las Vegas.

Realisations Inc. - Interactive Multimedia Programming Framework

Alchemical Machines is assisting Realisations Inc. to design, develop and maintain their interactive multimedia programming framework. The framework's objective is to facilitate and accelerate the development of Realisations's custom interactive environments.
